

Dear Parents,

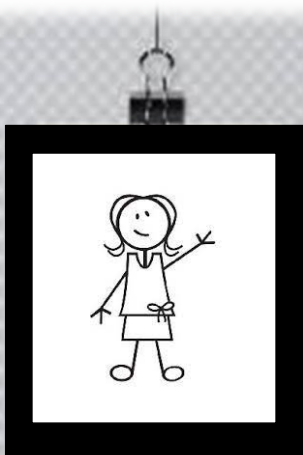

I am delighted to welcome you to the Day Head Start/Early Head Start program for the 2024-2025 school year. As your Family Service Worker, I am here to support you and your family by providing early learning, health, and family well-being services.

My goal is to build a strong partnership with you to ensure the success of both your family and your student. One key component of the program is our Family Partnership Process, where we will collaborate to identify your family's strengths, needs, obstacles, and interests. Together, we will set and achieve family goals to promote overall success.

I am dedicated to utilizing program resources to help you reach your goals and accomplish your personal missions. We will go through the Family Partnership Process together, so please look out for the sign-up schedule in your child's classroom soon.

I am excited to begin this journey with you. If you need any assistance before our visit, please feel free to contact me using the information below. I look forward to meeting you and supporting you in this exciting new school year.

Thank you,
 Day Head Start/Early Head Start -Family Service Workers
